

Philips Meet the Truck

Ensure timely and seamless installation of televisions at your property with Philips Meet the Truck.

Professional basic installation is included on 2010 Philips L models and can be added a la carte on other models when the minimum purchase requirement is met. Professional basic installation is defined as installation by Stevens Digital Group (SDG) limited to the following services:

- Logistics support and coordination with Philips sales manager, shipper and property management
- SDG Meets the Truck and unloads TVs to a secure area within the property
- Staging of Philips televisions
- Asset log
- Pedestal installation of any Philips television
- Wall mount of TV if property "hangs" wall plates (rooms only, public spaces excluded)
- Property site survey for PSG insertion and functionality
- Installation of property-purchased pedestal security mounts on wood case goods and/or adhesive mounts on hard surfaces
- Installation of Philips head-end controller*
- Removal of old CRT TVs to storage area within the property (excludes costs to remove old security mounts)
- Liquidator/Purchaser search for sale of old CRT TVs

- Removal of TV boxes (Property responsible for providing dumpster with daily pickup)
- Programming of the TV
- De-installation and re-installation of PPV components

A complete array of services is available should your installation have special requirements. Items below are excluded from basic installation and additional fees apply. Please contact Stevens Digital Group for a quotation.

- Mounting of TVs to granite, marble, stone or wood tops 3" or thicker on case goods
- Extra long carriage bolts for thicker case goods
- Cabling options - new coax whips, jumpers, etc.
- Disposal & Recycling service
- Installation of Connectivity Panels, Soundbars, DVD or other devices
- Installation of TVs in public areas
- Removal of old pay-per-view cards

Place your order today.

Call Philips at 866.273.7753.

For installation, contact Stevens Digital Group at 877.728.0620.

Property obligations: Complimentary rooms for each individual installation team member. All components and cables to be used will be provided by property and on-site at installation start. Adequate staging area. Access to a minimum of 50 (target) rooms per day. Installation of rooms will be on a consecutive room basis. Any change of date by the property to the installation schedule or delay in the projected installation timeline by the property for any reason will result in additional expenses which will be billed directly to the property. Please allow a minimum of 15 business days from the order date for scheduling installation.

Meet the Truck commitments are on a commercially reasonable basis and neither Philips nor SDG are liable for any delays in Meet the Truck due to acts of third parties, weather or any acts of God, or any delays caused by situations not under Philips or SDG's control. Meet the Truck installation is conditioned on and subject to property's collective bargaining agreements. Stevens Digital Group utilizes non-union labor. Philips is not responsible for installation or removal of televisions, or liable for any challenges that may occur.

*Contingent on confirmation of adequate distribution system within property.
